STOCK MARKET UNUSUALLY DULL

Movement of Prices Sluggish and Unimportant.

DEALINGS ON A SMALL SCALE.

Bond Market Was Quite Active and Yielded in Spots-Money Continues Easy-Local and Tobacco Markets.

(By Associated Press.)

NEW YORK, Nov. 28.—To-day's stock market was the dullest since the Monday preceding the election. There were no dealings on any considerable scale, and the movement of prices was sluggish and irregular and not important.

The market parrowed very considerably, elso, the number of stocks dealt in being smiler than for many days past. It is not impossible that to-morrow's holiday prompted the curtailment of speculative ventures. The dealings were left very largely in the hands of room traders, and the larger interests and the public were apparently out of the market entirely. There was no great pressure of liquidation, but when any considerable volume of stocks was offered there was not a sufficient demand to sustain the price.

On the other hand, even a small demand was sufficient to effect a considerable advance in price, as the selling orders were also on a very small scale. The market was generally heavy in the earlier part of the day, largely from the influence of weakness in the London market.

The disclosure through yesterday's London settlement of a long account in Americans is interpreted as weakening the technical position of this market, and the growing tightness of money in London gives rise to the apprehension that New York may have to absorb considerable speculative liquidation from that centre. In fact, the selling for London account to-day was estimated as high as 50.000 shares on balance.

Our own money market continues unruffied, call-loan rates ialling away a shade in spite of the continued absorption of funds on Sub-Treasury operations and the psytomenent of the return flow of the funds from the interior.

The recent daily average transfer of \$200.000 to New Orleans was sumblemented by the transfer of \$200.000

the funds from the interior.

The recent daily average transfer of \$100,000 to \$200,000 to New Orleans was supplemented by the transfer of \$200,000 to Chicago through the Sub-Treasury today. If the activity of interior business is to make new demands on New York for currency, it may upset calculations over the future of the money market. This may have prompted some of the distachment of the deal in stocks. The early heaviness of the market gave way quite generally to a recovery in the late dealings after London had ceased selling. Probably covering by room shorts was a factor in this movement. The gains were not all retained to the close, which was moderately active and irregular. A

were not all retained to the close, which was moderately active and irregular. A number of October statements of net earnings of railroads were published during the day, which were favorable with the exception of the Reading Company. The net earnings of this company for October were \$1,232,096 less than for October of last year as a result of the miners' strike. This did not prevent the stock rising over yesterday, but it became heavy later in the day. Amalgamated Copper continued to show weakness, supposed to be on account of apprehension Copper continued to show weakness, supposed to be on account of apprehension of unfavorable legislation in Montana. The new Chicago and Alton stocks were largely bought at advances of 2% and 1% for the common and preferred, respectively. The Rubber stocks were notably weak, but recovered part of their losses. The bond market was quite active and yielded in spots. Total sales, par value, \$4,055,000. United States bonds were all unchanged on last call.

unchanged on last call.
The total sales of stocks to-day were 602,500 shares.

GEN'L WALKER'S NEW AMBITION

His Candidacy for the District Attorneyship.

TREADS ON OTHER PEOPLE'S TOES

The Largest Rural Free Delivery in the Country to be Established in Country Contiguous to Bristol. Postoffices Abandoned.

(Special Dispatch to The Times.)
BRISTOL, VA., Nov. 28.—The probable
candidacy of General James A. Walker,
late Republican candidate for Congress in the Ninth District, for the position of United State Attorney for the Western District of Virginia, is a matter that is causing considerable comment here. It is said the General, who feels keenly the effect of defeat, will probably look for the next best thing without special regard for the wishes of his political friends who may wish the position. Judge T. M. Aiderson, the present attor-

ney, was recommended for the position by General Walker, and in return put his best efforts forth in behalf of the General's Congressional aspirations. Hon. D. F. Bailey, who was a candidate

for the attorneyship four years ago, is a candidate again. He stumped the Ninth District as the Republican candidate for elector. He has fought the battles of his party ably and eloquently in this end of the State for years, and unless he receives recognition this time he is going to feel the disappointment keenly.

BIJOU-Matinee and night-Vaudeville.

"Le Voyage en Suisse," depicting, as its name implies, a trip to Switzerland, was presented at the Academy of Music last night to a fair-sized audience. The play is a pantomimic musical comedy in three acts, freely adapted from the original French version, and is replete with stirring episodes, in which are introduced many unique mechanical devices and effects. The comedy is interspersed with vaudeville specialties, some of which are quite clever, and the pantomime of Charles Guyer and William C. Schrode is highly amusing.
